Tools

Postman - Git - GitHub - Notion

EDUCATION & CERTIFICATIONS

Bachelor's Degree in Computer Systems and Information Technology

Faculty of Engineering, Al-Azhar University, Cairo

Jul 2019 – Jul 2024

Grade: Very Good

React - The Complete Guide 2025 (incl. Next.js, Redux).

Academind by Maximilian Schwarzmüller

Route Academy (Frontend Development 2020)

Academind by Nadia Taha & Ahmed Bahnasy

STRENGTHS

Proficient in building responsive and accessible websites.

Experienced in integrating APIs and creating dynamic user experiences

Strong collaboration skills in team-based projects.

LANGUAGE

Arabic (Native)

English (Intermediate - B1)

PROJECTS

Diwan "Real Estate Management System"

[Live](#) [Github](#)

Freelance project launched in Saudi Arabia, Collaborated with a backend developer.

Skills: Html, CSS, React Bootstrap, React Js, Redux toolkit , Mongo db, Node Js

A modern platform designed to enhance the financial efficiency of real estate portfolios for owners and managers.

Features:

- Manage estates, compounds, contracts, revenues, expenses, and more.
- Handle tenant profiles, rent collection, and maintenance requests.
- Track portfolio performance with occupancy and financial indicators.
- Send SMS and email alerts for efficient tenant communication.
- Centralized management of tenant payments and property documents.
- Store and categorize documents for both owners and tenants.
- Flexible pricing plans with integrated electronic payments.
- Multi-admin support with role-based permission control.
- Powerful dashboard for owners, landlords, and brokers.

Give-A-Gift "Customizable Gift Card Platform"

[Live](#) [Github](#)

Freelance project launched in Saudi Arabia, Collaborated with a backend developer.

Skills: Html, CSS, React Bootstrap, React Js, Redux toolkit, Konva Js , Mongo db, Node Js

A modern gifting platform that allows users to choose or customize gift cards and send them to others, with flexible payment and reward options. Built in collaboration with a backend developer.

Features:

- Choose ready-made gift cards from partner stores.
- Customize cards with shapes, colors, messages, and prices.
- Cart system with PDF/Excel invoice printing.
- Support for user profiles, stores, merchants, and dashboards.
- Redeemable gift cards via QR codes (in-store) or promo codes (online).
- Earn discounts and cashback on transactions.
- SMS and email notifications for important updates.
- Secure payments via MyFatoorah (Mada, Apple Pay, Mastercard, etc).
- Loyalty wallet system to save or transfer reward points.

EasyJob "Job Finder Platform"

Collaborated with Back end developers in Graduation Project

[Docs](#) [Github](#)

Skills: Html, CSS, React Bootstrap, React Js, Redux toolkit, Google maps , My SQL db, Node Js

A platform that connects job seekers, employers, and freelancers, simplifying the job search and hiring process with intuitive interfaces and useful features.

Features:

- Job Seeker Portal to search and apply for jobs with advanced filters.
- Employer Portal to post and manage job listings, and connect with candidates.
- Freelancer Marketplace to showcase skills and explore available projects.
- User-friendly interface designed for a seamless experience.
- Flexible profiles for both employers and job seekers.
- Integrated map to find jobs near your location.

Zixes-Movies "Movies App"

[Live](#) [Github](#)

A movie database using third-party APIs (TMDb Api)

Skills: Html, CSS, Bootstrap, React Js, Context API , TMDb Api

- Responsive design for seamless experience across devices.
- Dynamic content powered by a real movie API.
- Explore a vast collection of movies by category or search.
- Detailed movie pages with overviews, ratings, release info, and reviews.
- Interactive UI with smooth navigation and transitions.
- User-friendly interface with clean layout and intuitive structure.
- Modern look and feel using React plugins and components.

Ricky-pet-shop "Pet Shop"

[Live](#) [Github](#)

Using third-party APIs for pets

Skills: Html, CSS, Bootstrap, React Js, Redux Toolkit , External APIs

- Browse a wide selection of pets (cats, dogs, birds) with detailed info from an external API.
- Responsive design optimized for all screen sizes.
- Wishlist functionality to mark favorite pets.
- Cart system with item management.
- Login and registration UI.
- Smooth navigation and clean user interface.

Note App

[Github](#)

Using third-party APIs for pets

Skills: Html, CSS, Bootstrap, React Js, Context Api , Mongo db, Node Js

- Create, read, update, and delete notes easily (CRUD functionality).
- Register and Login Auth
- Clean and intuitive user interface for seamless navigation.
- Organize personal or professional notes efficiently.
- Responsive design to support various screen sizes.

Anime Store "Anime E-Commerce Store"

[Live](#) [Github](#)

Focus on Using Redux to minpulate cart items

Skills: Html, CSS, Bootstrap, React Js, Redux

- Browse anime merchandise by category.
- Add products to cart with custom quantities.
- Update and remove items from the cart.
- Cart data is shared globally using React Context API.
- Responsive design optimized for all devices.

Encrypt-Decrypt-Images

[Live](#) [Github](#)

Focus on Using vanilla JS to encrypt and cycrypt images using AES method

Skills: Html, CSS, Bootstrap, JS, Crypto.JS

- Encrypt images using AES with ECB, CBC, or CTR modes.
- Decrypt encrypted images back to their original state.
- Built with HTML, CSS, JavaScript, and Crypto.js.
- Clean and intuitive interface for experimenting with encryption.
- Great for learning and demonstrating image encryption methods.

Mathematics-Queuing-Theory "Queuing Theory Solver"

[Live](#) [Github](#)

Focus on Solving Queuing theory problems using vanilla Js

Skills: Html, CSS, Bootstrap, JS, JQuery

- Solve a variety of Queuing Theory problems with ease.
- Supports models like M/M/1, M/M/c, and more.
- Instant calculations with detailed step-by-step solutions.
- User-friendly input form for parameters.
- Built using HTML, CSS, JavaScript, and Math logic.
- Ideal for students, educators, and engineers.
